THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50 U.S.C., 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

- 25X1 1. The Radio-Roentgen Zavod (Radio X-ray Factory) at Nis has not been fully completed. Building of this factory was suspended last winter by order of the Ministry of National Defense in connection with a plan to transfer the plant to the interior of Bosnia.
2. The technical staff in the factory consists mostly of German engineers and technicians. Although there are a small number of young Yugoslav engineers working on the staff, their actual contribution has been nil. The chief engineer, a German, signed a two-year contract which has now expired; however, owing to unstable conditions he refused to renew the contract and expressed the wish to leave the country.¹
3. Production plans provided for the manufacture of the following types of radio tubes: 6K7, 6J7, 6SA7, 6L6, 6N7, for use by the armed forces; ECH-21, EBL-21, AZ-1, for use by manufacturers of civilian radio sets.
4. In terms of actual output the factory has thus far only succeeded in producing the AZ-1 tube on a limited scale. The other types of tubes are also being manufactured in very limited numbers and production of these is in the nature of an experiment.
